

Mobile Makeovers

Make your wedding day relaxed and fun

Before

After

Congratulations on your impending Wedding. This is an exciting time of your life that will remain in your memory forever.

On your wedding day, you will need to have complete confidence in the skills and professionalism of your chosen make up artist and hairdresser.

Mobile Makeovers can provide this confidence to you.

We can offer you

- s Professional expertise and experience.
- s Prompt and totally **reliable** service
- s Long lasting natural looking Make Up
- s We come to you... so you can relax
- s Australian Made Products
- s A product for all skin types and all occasions
- s Waterproof Make Up available

Most importantly, **"WE LISTEN"**. we listen to what YOU want. For those who are not sure what they want, a trial will help determine the look and style that is perfect for you!

A trial is the best way to ensure complete confidence in your appearance for your wedding. We can not only help you determine your special look but can advise on skin care issues as well.

The foundations used are a professional range, strong in pigment but not in texture, so only a light application is required for great coverage. This will produce a soft flawless finish without a "thick" appearance that will last all day. Your regular everyday foundation will not give you the results that you need.

You can book your trial online or by telephoning the numbers below.

TRIALS.

As each stylist has their own unique personal commitments, your trial times will need to be discussed personally with your stylists. We will endeavour to have hair and make up trial at the same time but can't be guaranteed. Some stylists do not offer studio trials and may only offer mobile trials.

Eyelashes

For those of us who aren't blessed with perfect, thick, luscious lashes, there is something you can do to make a temporary and exciting change..... tinting your eyelashes is great while you have no make up on, but pointless on the day of your wedding when you will be wearing mascara.

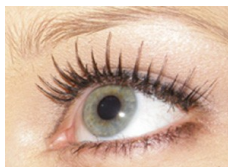

Individual false eyelashes are now available. There are two types available. Flares, which are small clumps of about 5 hairs and individual lashes which are like thick single hairs.

Flares really thicken and lengthen the overall lush appearance and can fill spaces where some lashes have been lost.

The individual ones take a little more time to apply but are practically impossible to detect and add fabulous, natural looking length to average length lashes.

With professional application of these "must have" beauty tools your eyelashes will look sensational.

\$10 for Flares and \$15 for singles and \$20 for the full band (pictured below).

Not convinced? Try them at your trial and see what a difference they make!! ([half price at your trial](#)). [Click here for more info on Eyelashes](#).
